REUSABLE PACKAGING

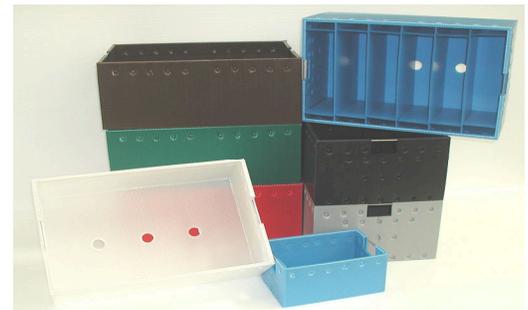

Vacuum Formed Clamshells

CP Products is the only manufacturer of both vacuum formed and corrugated **plastic reusable packaging**. We are located in Anaheim, CA and offer a wide array of packaging solutions from custom in-process trays to reusable shipping containers that can be custom made in a variety of plastic materials.

Industries Served

Medical, Automotive, Communications, Fiber Optics, Distribution, Electronics, PCB Manufacturing, Aerospace, Metal Stamping, Component Manufacturing

Used in all industries, reusable packaging is utilized to create product specific packaging to maximize protection and cost efficiency. Returnable products can reduce packaging costs by as much as 70% over the life of the package, in many cases, paying for itself within months of the purchase.

Corrugated Plastic

Plastic, as a packaging material is unmatched in durability, design versatility and reusability. Where parts protection is essential and cost reduction imperative, the durability plastics offer is unequalled. When examining the cost of procuring and the consequent disposal associated with expendable packaging, [plastic packaging is the ideal solution for the environment and the cost conscious manager.](#)

We compliment our plastic manufacturing with our stock of **plastic pallets** and **attached lid distribution containers**.

Medical Packaging
